

LINEA™

MINI-COLLECTION

The Linea™ Mini-Collection pulls inspiration from the Mid-Century Modern Movement where progressive transformations were taking place in design, architecture and urban development. It pairs simple lines and an organic integration with nature giving the style it's timeless and distinct look.

The clean geometric lines of Linea™ pair well with any potted plant or fresh cut bouquet giving it a classy appearance.

Our DLS Flip™ Sheets were designed so either side can be used as the primary exposed decorator or flipped over and used as an alluring accent.

Linea™ is available in 20" x 20" or 24" x 24" sheets, in four fresh color combinations and available with or without a center "X" cut.
