

Simplicity 2™ series

Modern, clean and simple. These are the components that are the foundation for A-ROO Company's new Simplicity 2™ Series.

A great addition to the already stylish and practical Simplicity™ Series, Simplicity 2™ Series offers even more design advantages by giving you two distinctly different contrasting color combinations in one simple sheet.

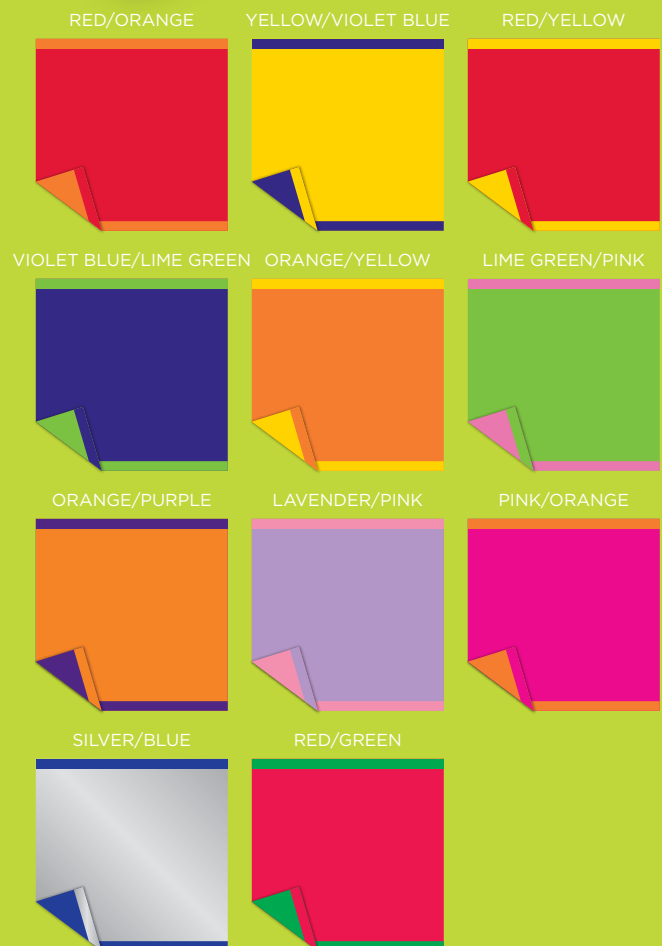

DLS Flip™ SHEET

The stripe accent along the edge of the Simplicity 2™ Series's DLS Flip™ Sheet gives the illusion of a multiple layer wrap, creating an upscale signature look for any potted plant or flower bouquet.

The vast array of color combinations ensures that you will find what is right for everyday, seasonal or holiday specific use.
